

How to Adjust Your RTMs to Report Multiple Times a Week

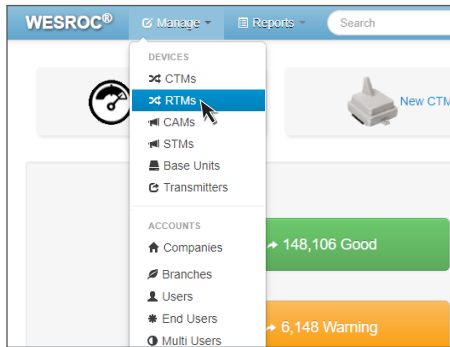

**RESIDENTIAL LTE
CELLULAR TANK MONITOR**

Your Residential LTE Cellular Tank Monitors are now able to report three times a week instead of just once a week. Follow the instructions below to learn how to adjust your RTMs to report multiple times a week.

STEP 1:

On the home screen, Select: **Manage**, then click **RTMs**

STEP 2:

Select the RTM device that you wish to edit.

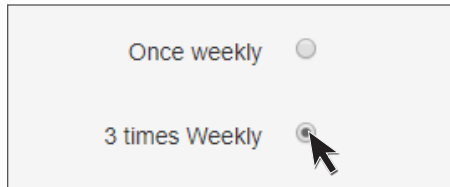

STEP 3:

Select: **Schedule**

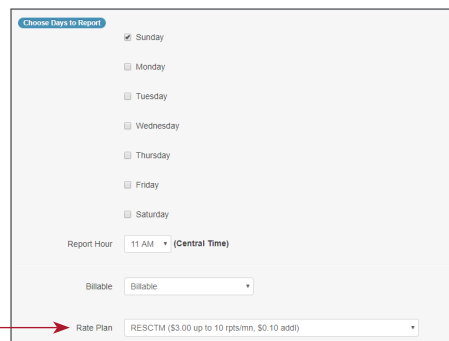

STEP 4:

Select the desired reporting option

STEP 5:

Select the three days the RTM should report

PLEASE NOTE:

Increasing the report frequency will incur additional charges. By choosing additional report days of the week, the Rate Plan shown will update accordingly. Increasing report frequency will also decrease the battery longevity. The battery warranty for residential tank monitors is 500 reports or 3 years, whichever occurs earlier. Please consult your sales representative for more details.
