

**LPWAN
TANK MONITOR**

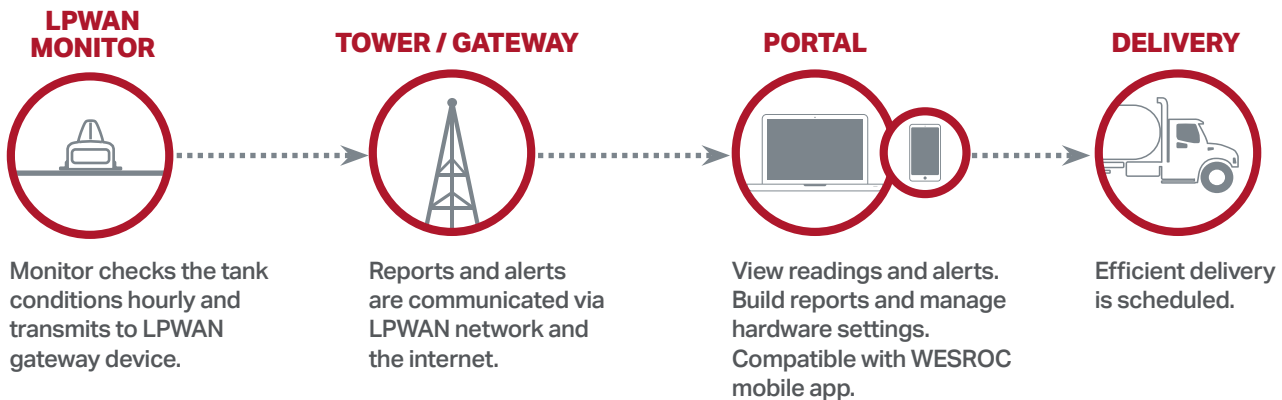

The industry's most cost-effective tank monitor.

Propane and fuel suppliers can see enormous benefits with the WESROC LPWAN Tank Monitor (LTM). This innovative monitor is beneficial for distributors with either a smaller deployment under existing network coverage, or for large-scale deployments.

The WESROC LTM will help you improve on all of your delivery logistics efficiency metrics. Our customers also see increased customer satisfaction, retention, and profitability as a result of adopting this monitor into their business operations.

The WESROC LTM utilizes the Senet LoRa (long range) network which is a LPWAN (low-power, wide-area) network. It requires less power and communicates at long range.

- Cost effective large scale deployment – Extreme efficiency
- Enterprise web portal for easy back office integration – utilizing Microsoft Azure
- Easy installation with built in activation verification
- Enhanced customer engagement for keep-full and will-call customers
- Increase delivery, customer and company profitability

LPWAN Tank Monitor (LTM)

- Measures tank levels to optimize delivery efficiency
